EDUCATION

SVKM'S NMIMS

Master of Science in Statistics and Data Science

Mumbai, India

Jul 2024 - Jul 2026

University of Delhi

Delhi, India

B.A. Economics and Mathematics

Oct 2020 - Sept 2023

Don Bosco School

Delhi, India

Commerce w/ Mathematics

Apr 2018 - Mar 2020

INTERNSHIPS

Omnichannel Intern

Eli Lilly and Company, Bengaluru

Jan 2026 – Jul 2026

- Analyzed **675,000+** AI/ML and rule-based engagement recommendations across **30 omnichannel use cases** in 11 global markets, developing a data-driven decision framework that guided portfolio optimization and stakeholder decision-making.
- Re-engineered the EU Next Best Engagement (NBE) data pipeline, **reducing execution time by 70% (6+ hours)**, improving system reliability, and scaling support for 10K weekly recommendations across multiple business units.
- Coordinated **Agile sprint planning**, use-case prioritization, to support timely execution of omnichannel engagement initiatives.

AI/ML Intern

360 Degree Cloud Technologies Pvt. Ltd, Noida

Jun 2025 – Aug 2025

- Developed **360 Genie**, an enterprise **AI chatbot** using Python, Microsoft Bot Framework, and Ask360 APIs, enabling automated intent classification and knowledge retrieval across 5 business functions.
- Integrated the **chatbot with Microsoft Teams**, implementing centralized logging, error monitoring, and environment-based configuration to improve operational reliability and user experience.

Business Analyst Intern

Resilient AI Solutions, Gurugram

Jan 2024 – Apr 2024

- Designed and deployed **15+ reporting dashboards**, enabling data-driven decision-making across business functions.
- Led process improvement initiatives that **reducing processing time by 20%** and increasing operational efficiency.
- Ensured **100% accuracy** in monthly financial reporting, building stakeholder trust with clear insights and recommendations.

PROJECTS

AI Trading Agent System

Apr 2025 - Jun 2025

- Designed a **multi-agent AI trading platform** leveraging CrewAI, AutoGen, LangGraph, and OpenAI SDK to automate **market analysis**, risk assessment, and investment decision workflows.
- Implemented autonomous decision-making, portfolio monitoring, and risk management capabilities through coordinated **AI agent collaboration** and tool orchestration.

ICC World Cup Score Predictor

Aug 2023 - Nov 2023

- Developed a score prediction model using **XGBoost** with descriptive analysis, achieving 81% accuracy.
- Attained an **RMSE of 5.5**, validating high prediction precision and enabling data-driven sports strategies.
- Identified and engineered 34 critical features, enhancing prediction accuracy by **15%** and directly supporting a more robust match strategy.

AWARDS & ACHIEVEMENTS

SKYHACK Data Analytics Hackathon

Sep 2023

- Secured **3rd position** in the Hackathon conducted by United Airlines.

FedEx SMART Hackathon

Jan 2025

- Finalist** in the Hackathon conducted by IIT Madras on for innovative solutions in logistics and supply chain.

TECHNICAL SKILLS

- Languages :** Python, SQL, MongoDB, Typescript
- Machine Learning:** Scikit-Learn, TensorFlow, NLP, Predictive Modeling, Feature Engineering, Statistical Analysis
